Terry's Discount Windows & More, LLC, a Christian family run business, has been in operation since 2003 and brings over 17 years experience in the industry. Based on integrity, we want to be set apart from other companies by striving to provide 100% customer satisfaction. If a problem arises, everything in our power will be done to rectify the situation. Only the very best is done to ensure our customers' happiness.

We have hand selected our installers to set a benchmark in the industry for top quality work, neatness and efficiency, through many years of installation experience. Our installers are very personable and are willing to go the extra mile to keep our customers happy.

We pride ourselves on being small enough to offer hands-on-service, but big enough to get everything our customers may want and follow through on all our promises.

Our faith in community service and in quality service goes hand-in-hand with our faith in God. Our business was opened in the hopes that we would be taken in good faith as a Christian business guided by Christian principles.

As a factory direct company, we are able to negotiate better pricing for top quality products. By buying factory direct, there is no middle-man. This cuts out a substantial amount of product mark-up, which means more savings for our customers. Beyond our quality products, the warranties provided for our products are second to none!

All in all, we are honored to have a unique and highly knowledgeable team with top quality products available to you, the customer, at unbelievable savings!

### Consumers' Beware!

- Not Every Energy Star Window qualifies for Earned Credit.
- Tax Credit Specifications States windows must have the following, u-factor < = 0.30 and a solar heat gain coefficient (SHGC)<sub>2</sub> < 0.30 to qualify.
- This is very important. There are windows on the market in this area that are Energy Star but will not qualify for the credit.
- Ask your Sales Rep for the NFRC Ratings before buying.
